Who We Are

Energytech Rift Gas Limited is a trusted and innovative logistics solutions provider, based in Nairobi, Kenya, specializing in the efficient, safe, and timely delivery of Liquefied Petroleum Gas (LPG). Founded in 2024, we have rapidly established ourselves as a leading player in the LPG distribution industry. We serve a diverse range of sectors across the entire country and the wider East African region, ensuring that energy is accessible wherever your operations demand.

At Energytech Rift Gas Limited, we are committed to providing top-notch, technology-driven supply chain and transport services tailored to meet the unique needs of each client. By combining highly competitive pricing with premium service, we empower businesses from local enterprises to major hospitality establishments to optimize their energy costs without ever compromising on safety or reliability.

Our Mission, Vision & Values

Mission:

To provide safe, timely, and reliable logistics solutions for the transportation of LPG, supporting energy access, cost efficiency, and operational excellence across our client network.

Vision:

To become the premier LPG logistics partner in East Africa, seamlessly expanding beyond national borders while setting regional benchmarks in reliability and service excellence.

The Core Values within our company are;

- Integrity.
- Safety.
- Timely reliability.
- Innovation and proper task management.

Services offered.

At Energytech Rift Gas Limited, we offer comprehensive, end-to-end logistics solutions specifically designed for LPG transportation and delivery. Every aspect of the supply chain is handled with precision, leveraging advanced fleet capabilities to support your business operations. Here's a closer look at the key services we offer:

1.Road Freight & Distribution

We specialize in safe, timely, and cost-effective road freight services for the transportation and distribution of LPG. Our transit network covers the entirety of Kenya alongside seamless cross-border logistics extending to surrounding countries within East Africa.

- **Why choose us?** We guarantee strictly on-time deliveries, real-time tracking, and highly secure bulk transportation. Our routes are fully optimized to guarantee that your energy supply remains continuous and completely uninterrupted.

2.Dedicated Hospitality Supply & Solutions

Energytech Rift Gas Limited is a primary energy partner for the hospitality and food service sector. We supply premium LPG to hotels, restaurants, resorts, catering companies, and large-scale food production plants.

- **Why choose us?** We offer the **best rates in town**, helping hospitality businesses manage their overheads effectively. Combined with our rigid delivery schedules, we ensure your commercial kitchens and heating systems stay powered 24/7.

3.Customs Clearance & Compliance

Navigating the complex regulatory frameworks surrounding regional LPG transit can be challenging. Our specialized customs clearance and compliance services handle all documentation, cross-border permits, and legal requirements swiftly.

- **Why choose us?** We facilitate seamless cross-border transit across East Africa, ensuring full compliance with both local and international safety standards to eliminate delays or fines.

4.Supply Chain Optimization

Through advanced technology and data-driven solutions, we streamline your LPG supply chain to improve both efficiency and cost-effectiveness.

- **Why choose us?** Our expert team identifies bottlenecks and implements cutting-edge routing to maximize your logistics savings.

Our Fleet & Technology

At Energytech Rift Gas Limited, we pride ourselves on having a modern, reliable fleet and advanced technology that enhances our service delivery. Our investment in both equipment and technology ensures reliability, safety, and transparency, allowing us to consistently exceed client expectations. Modern fleet of more than 20 trucks readily available and for service.

1.Modern Fleet of More Than 10 Trucks Readily Available for Service

We operate a state-of-the-art fleet of over 20 specialized trucks, all meticulously maintained to the highest industry standards to ensure maximum uptime and reliability. Each unit is equipped with advanced safety features engineered specifically for the secure transportation of Liquefied Petroleum Gas (LPG), guaranteeing that your product is delivered safely and on time, every time.

Complementing our mobile logistics, our strategic infrastructure includes two high-capacity bulk storage facilities in **Eldoret** and **Isinya**, each boasting a storage capacity of over **100 tonnes**. This robust footprint allows us to seamlessly bridge the gap between supply, storage, and distribution.

Why Choose Us? Our combined fleet agility and significant storage capacity mean we can manage substantial volumes and buffer market fluctuations without compromising on speed or quality. Whether you require urgent, high-volume dispatch or precision-scheduled deliveries, our integrated infrastructure is fully equipped to meet your demands with absolute reliability.

2.Real-Time GPS Tracking for Every Consignment

Every delivery we handle is tracked in real-time using cutting-edge GPS technology. This gives our clients full visibility of their consignments and ensures that they can track the progress of their LPG deliveries from start to finish.

Why choose us?

With real-time GPS tracking, you can always stay informed about your shipment's location and estimated arrival time. This transparency provides peace of mind, reduces uncertainty, and helps you plan your operations with greater accuracy.

3.Integrated Logistics Platform for Live Updates & Delivery Management

Our integrated logistics platform provides live updates and allows clients to manage their deliveries in real time. From placing orders to receiving detailed delivery reports, the platform simplifies the entire logistics process for your convenience.

- **Why choose us?**
  This user-friendly platform ensures that you are always in control of your deliveries. Whether it's tracking status updates, adjusting delivery schedules, or accessing delivery history, our platform offers a seamless, efficient experience for managing your LPG logistics.

Industries served.

Industries we serve include these;

(I) Energy & Power

- Power generation plants
- Renewable energy backup systems
- Off-grid energy providers

(II) Manufacturing & Industrial

- Factories using gas for heating, drying, or power
- Cement, steel, and glass production industries
- Industrial gas users (e.g., metal works, food processing)

(III) Hospitality & Food Service

- Hotels, restaurants, and resorts using LPG for cooking and heating
- Catering companies and food production plants
